WESLEY ELIGIBLE.

The Law as Handed Down by Chas. H. Morris, Attorney General of Kentucky.

Mr. P. P. Wesley,
Rumice, Ky.

Dear Sir:—

I have your letter of the 18th instant, in which you say a question as to the eligibility to the office of County School Superintendent of Adair County, in case you were nominated and elected, is being raised on the grounds that your State Certificate is insufficient because it is claimed that you took the examination in Casey County at a time when you were not a resident of that County.

I understand from your letter that you were born in Casey County, and resided there until 1908, at which time you moved to Adair, where you resided until the 1st day of January, 1916, when you then (Jan. 1st, 1916) bought a farm in Casey County, and it was then your expressed intention to reside thereon and make the same your legal domicile or place of residence, and did make same your home and residence. That while you thus claimed and held the Casey county farm as your domicile, you took the examination in that county for a State Certificate under the provisions of Section 4503, Kentucky Statutes. That afterwards in due course, the State Board of Education issued to you a State Certificate which would entitle you to teach in the schools of the State for a period of sixteen years, unless such certificate should "not be renewed at the end of eight years because of the fact that you might have failed to engage in active school work for two successive years, or because the local board might have deemed you unworthy because of immorality of character."

In addition to what you say in your letter, I find that State Superintendent, V. O. Gilbert, in January, 1917, wrote you substantially as follows:

"We have received the affidavit of Mr. Wesley, fixing his residence in Casey County and are ordering his certificate issued. This settles the question, as he has a right to fix his place of residence."

I do not find the affidavit referred to, as it appears to have been filed with Mr. Pogue, one of the inspectors, whose papers are not on file here.

However, I gather from the records of Mr. Gilbert's office that your certificate was held up by the State Board of Education on complaint of outside parties that you were not a resident of Casey County, and afterwards by the State Board directed to be issued when you filed the affidavit.

It seems to me that that act of the State Board is conclusive in the matter. They, after deliberating, were of the opinion that you were a resident of Casey County and issued your Certificate, and as Mr. Gilbert, the only person who, under the law, has a right to revoke this certificate was a member of that Board and by his letter referred to is on record as concluding that you were legally entitled to the certificate.

So it appears to me from all the facts obtainable that you are the holder of a legal State Certificate which will not expire for sixteen years, except you should fail in having it renewed at the end of eight years from the date of issuance, and that, so far as the question of the validity of the certificate is concerned, you are eligible to the office of County Superintendent of Adair County.

Trusting that the foregoing is sufficiently responsive to your queries, I beg to remain,

Yours truly,
Charles H. Morris,
Attorney General.

In order that the voters of Adair county may not be deceived or misled by unkind insinuations of those who oppose my nomination, I have called on the Attorney General of Kentucky for an opinion as to my eligibility for the office of County Superintendent of Adair County.

The same is published above in full and I trust will satisfy all who are interested.

P. P. Wesley.

There will be a Red Cross meeting Wednesday at 2:15 o'clock, in the Lindsey Wilson chapel, in connection with the Institute. The purpose to advance the interest of the Red Cross in this county. On next Monday a similar meeting will be held in the courthouse at 2 p. m. Judge Jones and Judge Hurt will speak in explaining the work, the necessity for it and our duty to forward this great movement under existing conditions. Its your pleasure and your duty to be present.

Mr. C. W. Coy, who was a brother of Mr. J. W. Coy, this place, was killed in a railroad wreck Monday of last week. The letter of notification did not give particulars, but the supposition is that it was near Cincinnati. The deceased was sixty-nine years old, and was the father of Misses Vivian and Rena Coy, known to the young people of Columbia. There are two other girls. Their mother died quite a number of years ago.

LAST CALL.

Take Notice Democrats:

If you are for your country and good old Adair, (as I know you are) then you are for me for Assessor, (as you should be) and now on eve of primary I want to thank you one and all, for your kind and generous assurances of support, and ask that you be certain to go vote for and use your influence in my behalf. With very best wishes to all.

Ed Butler.

I have a few more porch swings at a bargain.

Wesley's Confession.

V. O. Gilbert, in January, 1917, wrote: "We have received the affidavit of Mr. Wesley fixing his residence in Casey County."

Charles H. Morris.

Mr. Wesley has to reside in Adair county, 1 year next preceding his election. See 1916 School Law, Page 17. Gilbert ruled it. Huffaker's duty to take action on certificates similar to Wesley's. Wesley-Huffaker combined. Hope not.

George Aaron.

Beginning August 1st we will sell goods for cash or produce only. If you owe an account call and settle. The war is on and we may have to go to the front. Please heed this notice.

Just What the Farmers are Looking For.

T. G. Rasner & V. Sullivan have purchased the right of ten counties of the G. M. Bates Patent Gate, Allen, Barren, Green, Adair, Metcalf, Monroe, Clinton, Wayne, Cumberland and Russell. This is one of the best gates ever invented. It is so simple that any man that can make a common gate can make one of the gates. The price is in reach of every farmer. We want to sell every farmer in Adair county a farm right. We have a demonstration gate between the postoffice and livery barn for the benefit of farmers to inspect. See T. G. Rasner or V. Sullivan, Columbia, Ky. 40-2t

Plan to put the boy or girl in Lindsey Wilson, Sept. 3.

Enlisted.

Capt. T. A. Humble, of the Third Kentucky, who came here ten days ago as a recruiting officer, met with success. On last Wednesday the following young men volunteered their services for the United States army. These enlistments were prior to notification from the local Board of Examinations, and are exempt from the Draft Call. The men will enroll under the colors of the Third Kentucky Infantry. Nobility, bravery and loyalty characterize the actions of these men: Edgar W. Reed, Arthur C. Wolford, Paul R. Goode, Elbert B. Cheff, Eddie T. Sherrill, Sam C. Brockman, Robert Arnold, Willie Brockman, Robert Cundiff, Brice Walker, Clarence C. Taylor.

The C. W. B. M., will meet with Mrs. Z. T. Williams Tuesday, August 7, at 4 p. m.

Spirit of Patriotism.

A few days ago Dr. W. F. Cartwright, of this place, received a letter from his brother, Dr. A. Y. Cartwright, York, South Carolina. Among other things mentioned in the letter the southern doctor says, in speaking of his sons: "George belongs to the Post Artillery and will be stationed at Charleston, S. C. for a time. He bears the rank of First Lieutenant. Tom is at the Officers' training camp and has made good, so far. We expect him to get a commission and of course go to France. Pretty hard to give up two-out of three to your country, but if they had held back I should not have wanted to see them again, is my feelings. I believe the time has come when every able man should step out and say, 'here am I,' and then do his duty like a man."

A CARD.

To the Democratic Voters of Adair County:

A report has gained circulation, in some localities in Adair county, that I am a very sick man, and if elected to the office of Sheriff I would not be able to attend to the business.

It is true, that I have been sick, but I am daily getting better, and feel now that in a short time I will be in my usual health. If I did not think so I would not be before the people for office. I am in this primary to win the nomination on next Saturday, and I want my friends to be at the polls and support me. Pay no attention to reports concerning my health. If nominated, and I verily believe that I will be, I will not leave a stone unturned to win in November. The people of Adair county know me, and I believe they will stand to me on next Saturday. I make no charge against any particular person for the report out against me. It is out and I merely want to correct it.

R. M. Hurt.

Notice.

On Saturday, August 11th, 1917, at the hour of 1:30 p. m., the fiscal court of Adair county will receive bids for the construction of the road beginning at the corporate limits of the town of Columbia and going in the direction of Jamestown, Russell county, Kentucky. The following is an approximation of the work to be done: Earth excavation 10,161 cu yds. rock 4,064 cu yds., 12 ft. M. pipe 154 ft., 15 C. M. pipe 88 ft., 18 C. M. pipe 66 ft., 24 C. M. pipe 132 ft., concrete 46.1 cu yds., crowning and shaping .85 wide, clearing and grubbing 3 miles, crushed stone 3996 cu yds. Plans, profiles, and specification for said work on file in County Court Clerk's office in Adair county. Said work to be let to the lowest and best bidder. All bids must be accompanied by a certified check, payable to the Sheriff of Adair county for the sum of five hundred dollars. Said Fiscal court will sit at the court-house in Columbia, Ky., to receive said bids.

Walker Bryant Clerk,
Adair County Court.

Automobile Accident.

Last Wednesday Dr. C. M. Russell, of this place, was en route to Louisville, with a patient, Clarence Patton, in his automobile, and when he reached Fern Creek, ten miles from the city, a serious accident occurred. The doctor observed an auto, coming rapidly, meeting him. He gave all the road he could without going into a ditch. The oncoming machine did not check, as we understand, and crashed into Russell's machine, demolishing it. The doctor and patient were both thrown from the car, in the wreck. Dr. Russell sustained several broken ribs and one knee was badly hurt. He was conveyed to the Pope Sanatorium where his injuries were dressed by Drs. Wathen and Pope, and in a few days returned home. He expects to be out, able to attend to his business in a few weeks. Dr. Jas. Taylor, this place, was in Louisville at the time and was with Dr. Russell several hours. Mr. Patton also sustained cuts and bruises. The car that collided with Dr. Russell was being driven by a negro and belonged to Mrs. Beam, of Bardstown.

A Sad Death.

Last Friday Mrs. Lizzie Butler, who was the beloved wife of N. C. Butler, whose home was near Mt. Pleasant church, died in St. Anthony Infirmary. A week before her death she underwent an operation for a serious trouble, and for the first few days following, it was believed that she would recover, but complications set up, followed by death at the time mentioned. Her remains reached here last Saturday and Sunday the funeral was preached by Eld. J. Q. Montgomery, of Liberty, to many relatives and friends, the minister paying high tribute to her life and character. She was fifty-three years old the 20th of last February, and was a daughter of Mr. and Mrs. P. H. Bridgewater, who have been dead several years. Besides her husband she leaves several children, brothers and sisters. Her death brought not only sorrow to those who were near and dear to her, but the entire neighborhood, as she was active in Church and other work looking to the betterment of the community. The town of Columbia, where she was well known, are in great sympathy for those who have been so sorely bereft. The interment was in the family burying ground, and there were many beautiful flowers.

Social Gatherings.

Last Wednesday evening the home of Mr. and Mrs. J. D. Lowe was alive with young people, drawn there by invitations sent out by Misses Mary Lucy and Leonora Lowe, who had made preparation to entertain in a most gracious manner. The weather was ideal for a lawn gathering and the occasion proved to be exceedingly enjoyable. The festivities lasted until about eleven o'clock, and every body was sorry when the hour of separation arrived. The Misses Lowe are the happiest when surrounded by their many young friends.

Tuesday afternoon Miss Edna Lewis delightfully entertained a few friends in honor of the visitors of the town. Refreshments consisting of ice cream and cake were served.

Those present were: Mrs. Presley Clark, Bowling Green, Misses Margaret Adkinson, Middlesboro, Elizabeth Kemp, Earlinton, Mrs. Chas. Barnett, Mt. Vernon, Ill., Mrs. Leo Baldauf, Louisville, Misses Vic Hughes, Minnie Triplett, Madge Rosenfield, Katie Murrell, Mrs. C. M. Russell and Mrs. Edwin Cravens.

Friday afternoon Miss Alice Walker entertained for the visitors with a enjoyable porch party. A delightful lunch was served at 6 o'clock.

The following were present: Mesdames P. A. Strange, Irvin Frazer, G. R. Reed, Presley Clark, C. M. Russell, Taimage Smith, Nat Walker, Misses Margaret Adkinson, Vic Hughes, Elizabeth Kemp, Katie Murrell, Mary Grissom, Jennie McFarland.

Live Within the Law.

Next Saturday will settle the party political fate of many aspirants for office so far as this year is concerned, but another race begins immediately between opposing nominees to continue until November. We have often called attention to the importance of a clean contest, not only between the nominees of the two political parties, but in party primaries as well, and there is not a doubt as to the sentiment of the people supporting this position. The time for political debauchery of every description, in this county has passed, and no man can hope to receive the support of his party in the November contest who deliberately and wilfully takes an unfair advantage of his opponents for party nomination. The use of money to secure votes is a violation of law, and any one who will use it to defeat his party opponent need not hope for the respect and support of a large number of his party friends. Besides losing prestige with the best people the candidate who uses money may have to answer for his offense in the circuit court. Again the circulation of reports to arouse prejudice or to put an opponent in a wrong light before the voters of his party is contemptible, unfair and pandering to ignorance and can only be prompted by a spirit to wreck another to profit by it. Party primaries ought to be fair, and a man ought to be defeated in November who secures his nomination by doing injustice to his opponents. So far as we know no threats of money is playing a part in this county, and we merely call attention to do justice. Make a clean race, receive a clean nomination or expect a harder battle in the future.

I have sold my stock of groceries and wish to square my books and I want all parties owing me to call and settle at once.

C. H. Sandusky.

Married in a Car.

Last Saturday afternoon, at 6 o'clock Mr. Bryan Royce and Miss Flora Hutchison drove to the home of Eld. Z. T. Williams where they were united in marriage. Immediately after the ceremony the couple drove to the residence of the father of the groom where a bountiful repast was served. The bride is the only daughter of Mr. and Mrs. C. R. Hutchison, this place, and is a young woman who possesses many noble traits of character, popular with all the young people. The groom is a sterling young farmer, a son of Mr. C. R. Royce, who lives three miles out, on the Stanford pike. For the present the couple will make their home at the residence of the groom's father. The many friends of this popular couple extend their best wishes, trusting that their lives may be happily spent together.

Farmers Attention.

Since the inauguration of the "Good Roads" movement in Kentucky and the construction of many miles of the best roads found in America, this State has been quite a haven for tourists, coming from almost every state in the Union, and since many of our farmers have failed to recognize and grasp the benefits derived through the medium of publicity—in placing their names on gates and entrances to their farms—I am calling upon the land-owners in every county in this Commonwealth to please have a board or sign painted, giving the name of the owner of each farm, also the name of the farm, if same bears such, and post in a conspicuous place, on the gate or post at the entrance to the farm. This will require but little effort and expense upon the part of each land-owner and the benefits derived through such simple and inexpensive methods of publicity can not be over estimated.

Mrs. Lula Jones returned from Louisville Saturday, where she had been visiting her sister, Mrs. Dola Blair.
Bascom Grant had the misfortune to get his horse's leg broke recently.
Elmore Wilkinson sold a nice bunch of hogs to Bennett & Grasham one day last week, for a fancy price.
There was Quarterly meeting at this place on Saturday and Sunday, the fourteenth and fifteenth.

Alexander F. Kerensky has been made virtual dictator of Russia, and he has gone to the battle front to straighten out the army and lead it to victory again.

The Russians have won another great victory near Krevo but owing to the lack of discipline among the troops the captured ground was nearly all surrendered to the enemy.

Under the food bill passed by the Senate the government will take over all the whiskey in bond at cost and ten per cent., profit.

Hatcher.

Vegetation of all kinds has been greatly revived by several rains in this section this week. Corn and tobacco are somewhat late, but favorable weather for the remainder of the season will cause a bumper crop of each to be produced.
Irish potatoes has reached the one dollar per bushel on our market, and that is affording some relief to the buyer. Preparation for a lot of canning and preserving is being carried on, and the future bodes dire results for a great per cent., of the householders.
There is something near 500 acres of promising tomatoes growing for the factory next month. The ladies have been diligent in gathering berries for various uses.
Mr. Silas Wilson, who underwent an operation at the St. Joseph Infirmary, Louisville, nearly two weeks ago, returned home Thursday night much improved in health.
Mr. Fred May has been confined to his bed with typhoid fever for a week. He is in a critical condition, but his many friends hope a change for the better.
Mr. Charles W. Folk, wife and daughter, New York, arrived Wednesday, to be with Mrs. Folk's mother, Mrs. Maggie Turner, during the summer.
Money is very plentiful in this county. The banks are more prosperous than in any time in their history. The enterprising farmers are reaping greater benefits than any one else who has a different calling.
Mr. William Gwinn, one of the best merchants in all of this section, is in a low state of health, and his doctor doesn't speak encouragingly of his gaining it back soon.
All of the public schools opened on the first Monday, but all not so well attended on account of the busy season. Our teaching corps is better equipped than usual, and we predict better results than past years.
Mr. John Rucker sold a sorrel mare mule to John Holman for \$230. It is coming three years old, and Mr. Holman bought it to match one he had.
Corn is selling for \$1.75 a bushel on our market; wheat \$2.00. Mr. I. K. Miller & Sons sold 1,500 bushels to Abell Collins, New Market.
Our county roads are in a deplorable condition. While several rural routes are to be established in the near future, if all demands are met, yet the patrons of the proposed routes ought to realize that they cannot expect the accommodations to continue unless they comply with all specifications.
Charles Newcomb has sold his farm to W. J. Sapp.
Dr. F. I. Ruckner has received his commission as First Lieutenant of the Officers Reserve Corps, U. S. Army. He has a very promising future before him as a physician, but willing sacrificed this to work for the government. Every one regrets to give him up in his chosen profession.
Labor is scarce on the market. Every one who shows any inclination to work can readily find a job. A number of our young men have gone west, but taking everything into consideration, their labor here would be more remunerative.
A number of our mechanics are working on the cantonment, Louisville. Wages are satisfactory there, but board and lodging make an inroad on this accumulations.
The State Convention of the Farmer's Union will be held at Campbells-ville, the first and second days of August. It was to be held this week, but was deferred until the passage of the Food bill by Congress. The most talented speakers of the State are billed to be present, and it will be very profitable for every one interested to avail himself of the opportunity to be present.
So far there seems to be apathy among the voters in the coming primary. We have very few announced candidates, and some of them have no opposition. The world's conflict has diverted the attention of the people in general, and the restoration of normal conditions will have to be instituted before politics arouses any enthusiasm.

The aviation bill carrying appropriations amounting to \$675,000,000 has passed both Houses of Congress and has been signed by the President. It provides for the construction of 22,000 aeroplanes.

In Kentucky 1,200 physicians have volunteered to examine drafted men for tubercular symptoms to see that no one predisposed to this disease shall get in the army.

The New York Central Railroad will employ women where ever they are qualified to serve.

Build Roads.

Road building must continue, war or no war. If we hope to win the war—and win it we must—we must build roads. If we want to reap to the full the benefits of the peace to follow the war, we must build roads.

The slogan "business as usual" has provoked much controversy since it was suggested, and some very strong arguments have been made both for and against it. Every one of the arguments for it holds true for "road building as usual." None of those on the other side are valid.

While the war lasts—whether that period is to be measured in weeks, months, or years—we must continue to build new roads and maintain old roads, not upon the scale we have worked in the past but on a bigger scale.

We must increase our food supply, and because that is as much a problem of distribution as of production, we must have more roads and better roads. It will profit us nothing to raise bumper crops if we can not market them.

We must neglect no phase of military preparedness, and as has been demonstrated time and again in Europe in the past two and one-half years, an adequate system of improved roads is one of the greatest military assets a country can have. Except for the improved roads of France, Paris would long ago have been occupied by the Germans and the great drive the allies are now commencing would have small chance for success.

No false ideas of economy should be allowed to even temporarily check activity in road work in this country during the coming season. Often the surest way to save two dollars is to spend one, and just at present that principle can be applied most advantageously to road construction and maintenance. We need good roads today as we never needed them before and no one can say how badly we may need them tomorrow.

Every penny put into honestly performed, intelligently directed road work in America this season is a penny invested in the greatest material asset a country can have in war time or in peace, and is a penny spent for insuring the United States against the uncertainties of the future.

Those having control over road building in this country—in fact all who are working in this field—should avoid hysteria and settle down to build roads, more roads and better roads.

State Inspector and Examiner Nat B. Sewell criticised the action of the State-Aid road builders in Harlan county for paying \$13,000 for 23 miles of right-of-way.

The State Board of Valuation and Assessment assessed the C. & O. railroad at \$18,500,000. The road will accept the assessment.

Department of Public Roads.

Many of the very best turnpikes in the State some now nearly 100 years old, were built with State and under State supervision.

The grades of these roads are monuments of efficiency to the engineers who made the surveys. When state aid was withdrawn, road building in the greater portion of the State practically ceased for three-fourths of a century. The Act of 1914 again extended the helping hand and road building had such an impetus as has never been known before, 1600 miles built in two years is the record.

The Commissioner's Office at Frankfort serves as a great distributing center for road making data. The data on cost of material and machinery alone saves the people of the state thousands of dollars annually.

Information concerning surveys, construction, reconstruction, surfacing, plans, specifications and concretes can be had; and especially do I call attention to the efficiency of the bridge engineer's department.

Some local history is here pertinent. Woodford county has always collected a 25c tax for road purposes and with the old traffic conditions her roads should be maintained, but with the advent of the automobile the

CALLED HER FAMILY TO HER BEDSIDE**Six Years Ago, Thinking She Might Die, Says Texas Lady, But Now She Is a Well, Strong Woman and Praises Cardui For Her Recovery.**

Royce City, Tex.—Mrs. Mary Killman, of this place, says: "After the birth of my little girl...my side commenced to hurt me. I had to go back to bed. We called the doctor. He treated me...but I got no better. I got worse and worse until the misery was unbearable...I was in bed for three months and suffered such agony that I was just drawn up in a knot... I told my husband if he would get me a bottle of Cardui I would try it... I commenced taking it, however, that evening I called my family about me... for I knew I could not last many days unless I had a change for

the better. That was six years ago and I am still here and am a well, strong woman, and I owe my life to Cardui. I had only taken half the bottle when I began to feel better. The misery in my side got less... I continued right on taking the Cardui until I had taken three bottles and I did not need any more for I was well and never felt better in my life... I have never had any trouble from that day to this."

Do you suffer from headache, backache, pains in sides, or other discomforts, each month? Or do you feel weak, nervous and fagged-out? If so, give Cardui, the woman's tonic, a trial.

main roads were torn to pieces and the surface became a shell.

Something had to be done and means devised to raise more money to keep the roads in condition demanded by the public.

A bond issue had been suggested which I have always discouraged it if it was possible to avoid.

State Aid has been our salvation. The 5c levied for state road tax costs Woodford county about \$5,700 annually and what she has received for 1915 and 1916 and will receive for 1917 totals nearly \$37,000, more than double, and will have resurfaced 45 miles by the end of this season—100 per cent., profit is a good investment in any business.

The prime desire of the men who drafted this act was to inspire and help the poorer counties, and the bill is so drawn that those with the least assessment can get from the State Treasury the same amount as any other state, but based upon the principle of "Help to those who help themselves."

W. H. Edwards,
R. E. Woodford County.

The Truck and the Trucker.

The most modern and efficient means of marketing is the motor truck. With the motor truck a farmer living, say eight miles from the city or station, can start at 8 o'clock, deliver his goods and get home in time to eat his dinner and get the truck for the next day in readiness; whereas, the same farmer, by the old way of horse and wagon, would have to start before sunup and would usually get back home by sun-down. He would then have to take the next day to get his truck ready. In that way he would lose a day, and might lose some truck that would have been all right had it been marketed a day earlier.

Some truck farmers buy a regular motor truck, while others get "trailers," that is, a small wagon, to hook on behind their car. By the former way they can carry heavier loads, but the latter is preferred by the majority, as it is large enough to handle the products of most truck farms, and the car can also be used for pleasure, as the "trailer" can be unhooked at any time.

Another way some truck farmers do is to buy a second-hand Ford roadster or touring car and have truck bodies put on them by the blacksmith, who will usually do it cheap. This is cheaper, at first cost, than buying a new truck, but it will pay in the long run to buy a new one.

If you want to get the best service out of your car or truck, keep it well oiled and the spark plugs clean. You can never get full power from your engine unless the spark plugs are kept nicely cleaned. As a general

rule it takes only about thirty minutes to clean them well.

Here are a few good hints which help you keep out of trouble:

1. Don't fail to keep plenty of air in your tires (if you don't have solid tires), especially when your truck is heavily loaded.
2. Don't ever overload your truck, as this strains the engine and weakens the whole car.
3. Don't fail to keep plenty of water in the radiator.
4. Don't ever run on the rim without a tire on it.

B. Z. McKinney, in Southern Agriculturist.

One Egg in Every Six is Wasted.

It is estimated that seventeen per cent., of the eggs produced, one of every six is wasted because of improper handling by producer or distributor.

Thirteen million dozen, we are told, spoil every year from tiny cracks not observed by seller or buyer. Over five million dozen spoil from the effects of washing.

Many more millions of dozen decay because the roosters are left with the hens after the hatching season is over.

Some day farmers will candle all their eggs at home and send only fresh, clean eggs to market. Some day the buyers will accept no other kind, or if they buy "cracks" and "dirties," or take fertile eggs in the summer time, take them at a reduced price for the local market only. Some day, too, the farmers will work out a better system of marketing than the country store and the retail grocery, with their careless methods of handling and long delays in shipment, now offer.

In the meantime it will pay any farmer who has many eggs to sell and who wishes to build up a reputation and a profitable market for his product, to separate the male birds from the laying flock, to provide clean nests, to gather up eggs every day and store in a cool place, to take them to market as often as may be, to leave all that are stained, cracked, undersized or of doubtful age at home.—Southern Agriculturist.

Under estimates of the census bureau the number of men to be drafted from Kentucky is 13,494; 1,442 of which are from Louisville.

Nearly all the leases that have been taken in Adair county, by local men, have been sold to different oil companies, who are going to operate for oil some time in next year. We learn from men who have talked to the oil operators, that it is the intention of the capitalist to thoroughly test Adair county.

The meeting, now in progress at Union, was begun by Dr. Frank Cheek, of Danville, who preached from Sunday to and including Tuesday night. A good interest was started and the further progress of the meeting was taken up Wednesday night by Dr. J. K. Crawford, of Pikeville. The latter was a former pastor of the Church, and large congregations are hearing him.

Mrs. Lincoln Burton, of Purdy, was fifty-seven years old last Friday and in honor of her birthday and to show their esteem a surprise dinner was arranged by her friends—forty-seven being present. It was a splendid dinner enjoyed by the many present and better than all was the evidence of true friendship and love for a worthy lady from those who know her best.

Forest Akers, a boy about 16 years old, met with a severe accident last Sunday. He was at the creek with a crowd of boys, and in leaping from a springboard, his right leg struck a rock, cutting a gash three inches long on his right leg, below the knee. Dr. Hindman sewed up the wound taking a number of stitches. The boy could not walk without assistance.

Mr. I. K. Miller & Sons, who are large farmers and stock raisers of near Burdick, Taylor county, lost three valuable cattle from black leg last week. The dead cattle were buried, and forty-five others vaccinated. It would be well for the cattle raisers of Adair county to keep a close watch on their stock.

Spelling Match.

There will be an old fashion spelling match, under the auspices of the Woman's Club, at the court house Thursday night during the Institute, between the old and young people. Lots of fun. Admission 10 cents. Proceeds will go to cemetery and town improvement.

Bargains.

10 March hatched S. C. White Leghorn Cockerels from Foggs No 1 Pen at \$1 each if taken by August 10 J. O. Russell.

Mr. J. T. Goodman, of Russell county, is the Democratic candidate for Sheriff of Russell county, and notwithstanding the county is Republican, Mr. Goodman has a good showing to be elected. Some years ago he was a citizen of Columbia, and we take pleasure in stating that he is a clean man, and whatever he undertakes to do, he does it well. Being an honest, conscientious gentleman, there is not a doubt but he would conduct the affairs of the office in a manner satisfactory to the entire voting population of Russell. There are four Republican candidates for the nomination, and it will not be known who his opponent will be until after next Saturday.

\$27.00 Gold Watch for the Largest Potato.

On the last day of the Kentucky State Fair, Horace S. Meldahl will give a guaranteed \$27.00 Gruen Watch, ladies or gentleman's size, for the largest and best potato submitted to him by the opening day of the Fair.

The Watch may be seen, during the meantime, in the window of James K. Lemon & Son, Jewelers, 512 South Fourth St., Louisville, Ky.

Send your potato to Horace S. Meldahl, Attorney at Law, 616 Inter-Southern Building, Louisville, Ky. It will be given a number, and submitted to the Official Committee of the Kentucky State Fair. After the decision, all will be placed on exhibition.

EXEMPTIONS UNDER DRAFT LAW.

General Scope of the Claims That Will Be Considered by the Boards.

The following is a summary with explanatory comment of the rules and regulations that will govern exemption and determine the status generally of those who have been drawn as the first quotas for the new army that is to be raised by the United States.

It has been prepared by Mr. Grover G. Sales, a practicing attorney of Louisville, who will act as advisory counsel for the local board of the Seventh district, which comprises the Twelfth ward.

Now that the numbers under the selective draft law have been drawn and in a few days will be officially in possession of the local boards, the vital topic of interest to the public is the status of those persons who have been drawn in the first draft.

If physically and morally qualified they are only discharged for certain grounds. One of the most common grounds for discharge or exemption will undoubtedly be that of a man whose wife or child is dependent upon his labor for support.

The rule as to this is plain. If the income from which such wife or child receives support is the result of the husband's mental or physical labor, then he is clearly to be discharged from service under the present rules laid down by the President; but if the income supporting the family is mainly the result of dividends from stock or bonds or rents from real estate or other investments, independent of his mental or physical labor, then he is not exempt, as his wife or child could be supported on the income derived from his capital without his mental or physical labor. Each case necessarily presents itself to the sound sense and the fairness of the local and district boards.

If the wife has independent means of her own then the husband is not discharged from service.

If the wife has an independent income, but the children have not, and the support is mainly derived from the fruits of the father's mental or physical labor he is exempt.

Many persons have wondered whether or not the marriage of a drafted man, since the draft law took effect, would exempt him from service. It may be said in this respect that under the present rules and regulations issued by the president, under the authority vested in him by Congress, that men who have married recently are in exactly the same position as men who have been married for years, and will be exempted or discharged according as their wives or children are dependent upon their physical or mental effort for support.

It has been reported that a different rule would be enforced against men who had married since the law was approved, to-wit: May 18, 1917, but no such regulations are found in the bulletins and reports issued from Washington by President Wilson and sent to the local boards. Under the act the President has the right to change the rules and regulations at any time, and this rule may be changed like any other if the President sees fit.

OTHERS ENTITLED TO EXEMPTION.

In addition to married men with wife or child dependent upon his labor for support, the following also may claim discharge from selected draft on the following grounds:

A son of a widow dependent upon his labor for support; a son of an aged or infirm parent or parents dependent upon his labor for support; as father of a motherless child under sixteen years of age dependent upon his labor for support; as a brother or child or children under 16 years of age who have neither father nor mother and who are dependent upon his labor for support.

In all the above cases the same rules as to what constitutes dependency upon labor for support prevails as in the case of married men with wife or child dependent upon him.

It should be carefully noted that a claim for discharge or exemption under the law must be filed within seven days of the posting and mailing of the notice by the local board to the drafted man to present himself before the local board for physical examination. The fact that the notice is not received in due time or at all will not excuse. Every man whether an American or not, between the ages of twenty-one and thirty-one, must know when he is subject to call by the local board and should watch the notices posted at the offices of his district so that a miscarriage of the mails will in no wise prejudice his rights.

After the claim for exemption or discharge has been filed ten days are given to file proof by affidavits. In the case of a husband who asserts a claim for his discharge these affidavits should be made by himself, wife and a supporting affidavit signed by the head of a family in the local district. The wife or a third person may file this claim if the husband does not. Application should be made to the local board for the proper forms. No argument is made before the local board and no proof other than the affidavits is required unless the board calls for additional proof. In three days thereafter the local board will render its decision.

THESE ARE EXEMPT.

In addition to the grounds caused by the persons dependent upon the drafted man for support the following are well-defined grounds for exemption fixed by Congress:

1. An officer, legislative, executive or judicial, of the United States or Kentucky, that is, the Governor, Secretary of State, Attorney General, the Representatives and Senators and Judges are exempt.

2. A regular or ordained minister of religion.

3. A student who was on May 18, 1917, the day the act was approved, preparing for the ministry in any recognized theological or divinity school.

4. Any one in the military or naval service of the United States.

5. Any person who is a subject of Germany whether he has taken out his first papers for citizenship or not is absolutely exempt from service. This is one case where a drafted man will be exempted, even though he has not filed a claim of exemption, if in the opinion of the local board of his district he is a subject of Germany. In such a case it would be eminently wise for a German alien to file a claim of exemption promptly with his local board.

6. Under the present law a resident alien other than a citizen of Germany who has not taken out his first papers declares his intention to become a citizen is exempt from service, but if he has made his first declaration of citizenship even though he has been in this country, but a few months he is not exempt and may be called to the service. This seems to be true even of Turks and Austrians and other countries allied with Germany in this war since the United States has so far declared war against Germany alone. It is most improbable, however, that the government would accept a citizen of a country allied with the enemy in the service of the United States army.

CLAIMS FOR DISCHARGE

In addition to these claims for exemption claims for discharge, according to the rules and regulations of the President, may be filed on any of the following grounds:

1. Being a county or municipal officer who has been elected to his office by popular vote and whose office may not be filled by appointment for an unexpired term.

2. A Customhouse clerk whose duties are necessary to the effective operation of the Customhouse.

3. A person employed in the transmission of mails who can not be replaced without substantial loss in the operation of the department in which he is employed.

4. A person who is an artificer or workman employed in the armory, arsenal or navy yard of the United States.

5. Any person employed in the service of the United States who cannot be replaced without substantial loss in the effective operation of the department in which he is employed.

6. A licensed pilot.

7. A mariner.

Take Notice:

Do you wish to enjoy the satisfaction of knowing that the Tombstone or Monument you erect as a final tribute to the one you loved, and whose memory you wish to pass down to posterity, will not only be a fitting and beautiful memorial, but will also endure through ages to come? If you do, your attention is called to the many monuments of Marble and Granite which I have placed in the Cemetery at Columbia and surrounding burying grounds, which will show you the beauty and durability of the material used in their construction, and attesting the care and neatness with which my work is done. Call on O. P. Bush, Columbia, Ky., and tell him what you want, and he will make you prices within easy reach of all. Give him your order and you will be sure to get the best on the market.

8. A member of a religious sect whose religious convictions are against war. Pacifists, conscientious objectors or slackers will find no help in this section.

9. Those found to be morally deficient, such as felons. The government will not subject its soldiers to such associations.

In the event the local board decides adversely to the claims for exemption or discharge made by the person under consideration an appeal will lie to the district board if said appeal is made within ten days after the day when notice has been posted and mailed that such person's name has been certified to the district board as one who has been called for service and not exempted or discharged. The government also has the right of appeal to the district board if the claim is allowed, but no time limit is set thereon. The time for the appeal may be extended by the local board for good cause in exceptional cases.

The district board alone considers claims for discharge on the ground that the person is engaged in an industry including agriculture found to be necessary to the maintenance of the military establishment, the effective operation of the military forces or the maintenance of national interest during the emergency. Under no condition should such a claim for discharge be presented to a local board. It has no authority to consider it. Such claims must be filed with the district board on or before the fifth day after the mailing and posting of notice that the individual has been certified by the local board as one who has been called for service and not exempted or discharged. This includes coal miners, many skilled employees of manufactories, farmers and the like.

No appeals from the decision of the district board on any ground for discharge except that claimed on industrial grounds. An appeal from the decision of the district board on this ground must be made to the President of the United States within seven days of the date of the mailing to the person of the adverse decision of the district board.

PHYSICAL QUALIFICATIONS.

Generally before any of the claims for exemption or discharge on any

ground are considered by the local board every person will be thoroughly examined by the physician connected with the local board according to the qualifications laid down by the rules and regulations. If the physician examining the registrant is in doubt as to whether or not the person examined is physically defective the doubt must be resolved in favor of such person's qualifications for military service. Every person examined must be examined in the presence of at least one member of the local board other than the medical member. Under no condition may a physician examine a relation nearer than a second cousin, nor shall any member of a local board participate in or pass upon the physical qualifications of a relative nearer than a second cousin.

If the first examining physician finds the person examined physically defective he must be examined by another physician without reference or regard to the report of the first examiner. If the second physician finds the person physically qualified for service then the board must hold him to be qualified. The local board has a right to disregard the findings of both physicians and hold the person to be physically qualified if it sees fit. It is only when both physicians find him physically unfit and the board concurs in such findings that he is discharged from the draft. Even if the local physicians find a person physically sound the army physician at the point of mobilization will have the right to reject him on account of physical deficiency.

Congress has put teeth into the law by imposing heavy penalties for infractions thereof and the warning should be made emphatic that ignorance of the law excuses no one.

While the war is on, do not neglect to give the boys and girls the opportunity of an education. We have a good school in our midst, and if a man ever intends to educate, prices will not be better. The Lindsey-Wilson Training School is located here and takes care of students placed here.
